

## DATA

SCI specializes in mobility solutions for wireless network planning and implementation services. SCI offers wireless technologies that enable rapid deployment, scanning capabilities and scalability as well as the cost savings of in-building or building-to-building connectivity, helping to avoid expensive cabling, carrier circuits, trenching, or right-of-way issues.

In addition, SCI delivers video conferencing from basic IP connectivity and simple dial-up services such as ISDN to more complex WAN technologies enabling visual interaction between anyone, anywhere.

SCI offers Aruba, Juniper Networks, Metrologic, Microsoft, Motorola, Polycom and Nortel products and the following solutions:

- Routers
- Wireless LAN
- Wireless telephony
- Voice-over Wireless LAN (VoWLAN / VoWi-Fi)
- Building-to-Building broadband wireless
- Wireless network management
- Wireless security servers
- Networking switches
- Scanning devices
- Audio/Visual conferencing
- Unified Communications using Microsoft Office Communications Server
