We Bring Technologies Together

Nationwide Capabilities

SCI has positioned itself to provide nationwide services to large and small business. Our headquarters in Redmond, Washington is closely tied together with a network of other partner locations. With technicians and stocked warehouses located across the country, SCI can provide services quickly and strategically to any region within the United States.

- National remodels and technology rollouts
- Comprehensive logistics support
- Moving, adding or changing location or configuration (MACs), break-fix, security, and optimization services
- Hosting, intranet, internet, and voice networks
